[Github/RandyChu](https://github.com/RandyChu)

I am a people-centric software developer with a leadership style that prioritizes the well-being and growth of my team. With excellent communication skills and a collaborative nature, I ensure projects are completed to the highest standards. I have a track record of delivering exceptional outcomes and hold an active Secret Clearance from the Department of Defense.

## Technical Skills

---

HTML - CSS - TailwindCSS - Bootstrap - JavaScript - TypeScript - React - jQuery - Java SE - Java EE (Servlets, JSP) - Spring - MySQL - Thymeleaf - Object-Oriented Programming - Test-Driven Development - Version Control with Git - Paired Programming

## Development Projects

---

[Furever.space](#) ([Furever Social Media App](#)) is a social media application that allows pet owners to create events and interact with other pet owners locally or nationwide. Users are allowed to post pictures and words on a feed, create events for other users to see and a list/map that shows events within 50 miles or all events in the United States. Other features include AI auto completion for posts and events, a follow and talking feature as well as the ability to upload pictures.

### [Ad Lister Project](#)

The Ad Lister project is a web application that allows users to view, create, edit and delete ad listings. Users can create a profile to post their own ads, which they can then edit or delete. The project includes a navbar that changes based on login/logout, sticky forms, a page to show ads/details, a search bar, and a personal profile page for users to manage their ad listings. The project also features back-end validation, error messages, intended redirects, and consistent styling with TailwindCSS and grid layout.

### [Coffee Project](#)

Web application that uses JavaScript to dynamically display the coffees array and manipulate the DOM in order to show the coffees. Used the search bar to look up a certain coffee as well as being able to add a coffee to the array from the DOM.

### [Weather Map API](#)

Used HTML, CSS, JQuery, Ajax and the OpenWeatherMap API to display the five day weather conditions on the marker. The weather changes with the search input or when you drag the maker to any location you want.

### [Movie App API](#)

This is a project for Codeup students to gain further understanding of the JavaScript fetch API and how to use it to make requests to a server. The project is a movie database that allows users to search for movies and add them to a list of favorites.

## Work Experience

---

**United States Army** - Fort Hood, TX

*Human Resources Manager / Dec 2020 - Nov 2022 (End Of Tour)*

- Established a Human Resources department of 4 during a deployment to provide administrative support for over 252 Soldiers. Demonstrated learning agility in complex settings by serving as the subject matter expert and primary point of contact for any and all human resources actions.
- Resolved over 10,950 personnel inquiries, reviewed and processed over 252 awards and completed periodic personnel audits, as the sole records manager for all 252 assigned. Worked with multiple Human Resources Databases and contributed heavily to maintaining a 98% personnel readiness status throughout two years.

- Demonstrated ability to negotiate and influence others by working with senior leadership to gain support for the implementation of a career progression system that provided guidance and mentorship for Soldiers, resulting in the promotion of over 24 Soldiers.

#### **Metis Technological Solutions** - Mountain View, CA

*Human Resources Clerk / June 2018 - Aug 2018 (Contract)*

- Played an essential role in the transition of employees at NASA from the Prime Contractor and subcontractors from SimLabs II to the SimLabs III Prime Contractor and subcontractors.
- Demonstrated forward thinking and the ability to work through unpredictable circumstances with minimal guidance by facilitating communication between CEOs, government officials, and internal staff.
- Attended coordination meetings and presented clear and actionable summaries to drive effective decision making and productivity.
- Developed a database of over 40 employees' resumes to be shared with multiple CEOs as coordination was completed to assign employees.

#### **ComplianceEase, Inc.** - San Mateo, CA

*Data Entry Specialist / June 2016 - Aug 2016 (Internship)*

- Created the training materials for LendingQB for distribution within the Business Operations Department's staff.
- Demonstrated strong written and verbal communication skills by providing routine detailed statistical reports to the Business Operations Manager.
- Processed approximately 1000-2000 IRS 4506 forms, demonstrating strong analytical and decision-making skills.

## **Education**

---

### **Codeup**

Certification of Completion

Nov 2022 - May 2023

A fully-immersive, project-based, and intensive 20-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development.

### **San Francisco State University**

Bachelor of Business

Sep 2016 - May 2020

Completed four years of undergrad business studies focusing business management

### **Secret Clearance**

Granted June 2014
